**Subject:** Our roof

We had our roof fixed after almost eighty years of neglect. Slate is not something that most roofers will tackle, and the few who did, before Statewide, did more harm than good. Thankfully our neighbor found Statewide and had them fix their roof. We asked them who did such a wonderful job and they directed us to you. We have been extremely pleased with the job you did on our roof and the care you took with our landscaping. Now we get positive comments every time someone sees our home. I highly recommend you to all our friends that have slate roofs. Our thanks to Don and his troop of roofers, you're the best. Ron and Bill
